The Program is a state opted program that allows the state to deny vehicle registrations. There are 11 cities enrolled in the program. Mr. Worthy stated it would be \$20.00 per case. The \$20 service fee is added to the citation amount and the constituent would be paying that fee not the City. Commissioner Benavidez stated that his concern would be the time of adjustment for the constituents. Mr. Quintanilha stated that there is over \$346,000 in outstanding fines. In 2000, the city had over \$700K in outstanding fines. This is the alternative to putting someone in jail. Under the agreement, it indicates the judge may dismiss the \$20.00 fee. Orange street ditch will need permission from the school district to go onto their property to clean but will only be able to do half of the ditch. Commissioner Benavidez wants an efficient solution to maintain the ditches on the water flow. It was more cleaning out the ditches not really excavating and also to prim the areas. Mayor Montoya stated that once the excavator is up and running then it needs to go back to collier park and finish that project first. **DRAFT MOTION:**

The Mexico-United States border, known as the southwest border (SWB), extends nearly 2,000 miles, is the tenth-longest border between two countries in the world, and is the most frequently crossed. State, local, and tribal law enforcement agencies located in the SWB face limited staffing and resources while also having to traverse a variety of terrains-from rural areas to deserts-in order to enforce immigration rules, prevent violent crime, and protect the safety of U.S. citizens.

The Bureau of Justice Assistance (BJA) SWB Rural Law Enforcement Assistance Program is an innovative new initiative designed to provide resources to small, rural, and tribal law enforcement agencies, located in one of the SWB states of Arizona, California, New Mexico, or Texas. The goal of this effort is to help these agencies address precipitous increases of all types of crime unique to this region, including human trafficking, sexual assaults, extortion, gang activity, murder, drug trafficking, unique local issues, and other forms of violent crime.

The subaward is a federal award provided by a pass-through entity, Institute for Intergovernmental Research (IIR), by which funding is made available through a reimbursement process. The amount of the subaward approved by BJA is up to \$80,616.25 for in-car computers and associated equipment and peripherals.

With the department migrating to an added new computer aided dispatch, fire & EMS, and mobile public safety software provided by Tyler Technologies, this subaward will allow our department to obtain in-car computers. These in-car computers will allow officers to receive real-time information at their fingertips and check whether a vehicle is stolen or a person is wanted. This will allow our agency to instant data share across jurisdictions, with intelligence-led responses which will minimize officer safety and radio traffic.

Re: Action to Authorize Staff to Expend Awarded Subaward Agreement between the City of Mercedes on behalf of the Mercedes Police Department and the Institute for Intergovernmental Research (IIR) in the Southwest Border Rural Law Enforcement Assistance Program monies to Purchase in-car computers and associated equipment and peripherals.

---

The Mexico-United States border, known as the southwest border (SWB), extends nearly 2,000 miles, is the tenth-longest border between two countries in the world, and is the most frequently crossed. State, local, and tribal law enforcement agencies located in the SWB face limited staffing and resources while also having to traverse a variety of terrains-from rural areas to deserts-in order to enforce immigration rules, prevent violent crime, and protect the safety of U.S. citizens.

The Bureau of Justice Assistance (BJA) SWB Rural Law Enforcement Assistance Program is an innovative new initiative designed to provide resources to small, rural, and tribal law enforcement agencies, located in one of the SWB states of Arizona, California, New Mexico, or Texas. The goal of this effort is to help these agencies address precipitous increases of all types of crime unique to this region, including human trafficking, sexual assaults, extortion, gang activity, murder, drug trafficking, unique local issues, and other forms of violent crime.

The subaward is a federal award provided by a pass-through entity, Institute for Intergovernmental Research (IIR), by which funding is made available through a reimbursement process. On September 22, 2021 fully executed subaward agreement was approved by BJA up to \$80,616.25 for in-car computers and associated equipment and peripherals.

With the department migrating to an added new computer aided dispatch, fire & EMS, and mobile public safety software provided by Tyler Technologies, this subaward will allow our department to obtain in-car computers. These in-car computers will allow officers to receive real-time information at their fingertips and check whether a vehicle is stolen or a person is wanted. This will allow our agency to instant data share across jurisdictions, with intelligence-led responses which will minimize officer safety and radio traffic.

It is the intent of Mercedes Police Department to utilize Dana Safety Supply, Inc. for the procurement and installation of the needed equipment. While not the lowest priced vendor, it is our belief that Dana Safety Supply, Inc. provides the best value to Mercedes for several reasons.

Firstly, our organization has previous experience with Dana Safety Supply, Inc., as they have previously provided equipment to us on a number of occasions, and have always provided successful customer service to our department, ensuring minimal downtime to our operations.

Secondly, Dana Safety Supply, Inc. is located in La Feria, TX, local to Mercedes which not only provides a convenient response time, but we believe in contracting with them we will be supporting our local economy.

While GovDirect has provided the lowest priced option, we are unfamiliar with their service and ability to deliver the requested procurement. South Texas Communication has provided the highest priced option, and exceeds our allotted grant budget. We firmly believe that extending our business to Dana Safety Supply, Inc. is in the best interest of our organization.
